### Hopkins County's Coal Output for 1900 Exceeds 1899 by That Many Tons.

### JANUARY WILL BREAK RECORD

### Muhlenberg Shows Loss and Ohio County Only Slight Gain.

Less than a year ago the State Mine Inspector, Hon. G. W. Stone, wrote to THE BEE a letter giving in full the statistics of Hopkins county's coal production for the year 1899. In the first paragraph of the letter he wrote: "There were no labor troubles nor strikes nor suspensions from any cause. The year's record made, with present conditions and future prospects, the entire people of the county may well congratulate themselves on the existence in their midst of such favorable conditions for living and wealth, and should strive in every honorable way to maintain them."

During 1900 the miners and the people of Hopkins county have shown no disposition to change the advantageous and exceptional conditions of which Mr. Stone speaks, with the result that the continuous working of the mines of the county with the unchanged, harmonious relations of miners and employers has again produced a very gratifying increase of coal tonnage for the year.

The total output of the commercial mines of Hopkins county for the year 1900 reached the enormous figure of 1,853,740 tons, which is an increase of 88,033 tons over the previous year. In 1899 business in every branch had increased and expanded enormously and the output of the Hopkins county mines was phenomenal, being 303,991 tons more than that of 1897.

This much for Hopkins county where the mines have been and are all non-union mines and not subject to strikes and lockouts at

the pleasure of the paid agitator and walking delegate.

Compare now with the two next largest producing counties of Western Kentucky, Ohio and Muhlenberg, where the mines are all operated by union miners.

1900 COMPARED WITH 1899.  
Hopkins, increase 88,033 tons.  
Ohio, increase about 2,000 tons.

Muhlenberg, decrease about 1,000 tons.  
These figures THE BEE secured by wire from the State Mine Inspector in order to be able to furnish the information while it is news to our many interested readers. We will give more detailed report later.

**HOPKINS COUNTY.**  
1898—Output in tons..... 961,715  
1899— " " " "..... 1,305,708  
1900— " " " "..... 1,853,740  
These figures look good. They tell the story of continuous, contented work by a force of men free of the dictation of labor agitators, strikers and lockouts.

**OHIO COUNTY.**  
1898—Output in tons..... 436,518  
1899— " " " "..... 515,807  
1900— " " " "..... (about) 517,800

Ohio county works union labor and shows an increase over 1899 of only 2,000 tons. In the increase shown for 1899 over 1898 the "principal gain was made at the Taylor mines, where there was a six-months strike in 1898 and almost continuous work in 1899."

**MUHLENBERG COUNTY.**  
1898—Output in tons..... 208,507  
1899— " " " "..... 414,846  
1900— " " " "..... (about) 413,800

Muhlenberg county also works union miners. The loss for 1900 compared with 1899 is about 1,000 tons.

### HELD FOR DIXON CIRCUIT COURT.

Two of the Men Charged With Holding Up Non-Union Laborers.

DIXON, Ky., Jan. 25.—The examining trial of the three union miners charged with holding up non-union miners enroute to the Providence Coal Company's mines, was held here yesterday. Albert Blivens and Mose Anderson were each held in the sum of \$250 to appear at the April term of Circuit Court, and in default of bond were sent to jail. The third man proved an alibi.

Albert Blivens is a brother of Hiram Blivens, who is in jail here awaiting trial on charge of shooting, from ambush at night, Robert Holloman, a guard for the Providence company.

It is charged that Blivens, Anderson and others, armed with guns, intercepted a lot of non-union colored laborers who were being taken to Providence by wagon, and threatened them, trying to turn them back. The driver forced his way through their ranks, and no one was hurt. None of the rest of the party has been apprehended, but warrants are out for them.

### SLUSHER GOT SIX MONTHS.

Pugilistic Election Ruffian of Louisville Sentenced by a Jury.

LOUISVILLE, Ky., Jan. 26.—Chas. Slusher was given six months' confinement in the workhouse at hard labor, by the jury in the circuit court, this afternoon. Slusher is the pugilist who committed assault and battery on the person of Dr. D. T. Smith, a reputable physician of Louisville, at the notorious election of November 6, 1899. Dr. Smith was acting as a special bailiff by order of Judge Toney's court on that day, and had been appointed by the court to serve notice of injunction upon certain election officers of this city to compel them to admit Brown inspectors to the polls.

### A Novel Idea.

Washington, Ind., Jan. 28.—The Rev. I. L. Gorby, pastor of the First Presbyterian Church, has been employed by L. H. Creager to deliver a fifteen-minute sermon every morning for one month to the sixty workmen in Creager's stove and heading factory. The Rev. Gorby delivered his first sermon at the factory this morning.

### LION'S TOOTHMARKS ON ROOSEVELT'S GUN.

An Exciting Adventure in Which President-Elect Used Knife.

Meeker, Colo., Jan. 24.—News direct from the Keystone Ranch, at which place the Roosevelt hunting party is stopping shows that between January 12 and January 22 twelve grown mountain lions, three kittens and eight lynx cats were killed.

On Saturday last the party had quite an exciting adventure with one lion. The lion was held captive by and was fighting with the whole pack of hounds. The hunters were trying to get near enough to the animal to kill it with their knives, when it seized one of the dogs by the jaw. Gov. Roosevelt shoved the breech of the gun into the lion's mouth, holding the gun by one hand and with the other striking a death-blow with his knife. His gun shows the marks of the lion's teeth. All the grown lions were killed with the knife.

### In Defense of Kentu by Character.

Apropos of the discussion as to whether "Stringtown-on-the-Pike" was a true Kentucky story Prof. William Goodell Frost, President of Berea College, Kentucky, writes to a New York paper: "You will excuse me for some special interest in the criticism of the character of the Kentucky mountaineer as exhibited in the popular novel entitled 'Stringtown-on-the-Pike,' which has appeared in your columns. No people need a friendly interpreter more than the American Highlanders, and as President of Berea College, I have had exceptional opportunities, and it has been my special duty to study their character, and all that can be known of their history. This week four mountain boys have walked to Berea, distances ranging from ninety to one hundred and twenty-five miles.

"I believe that they are belated people, living a life of survival, and not a degraded population. I further believe that with their native ability, sub-stratum of character and American spirit, they can be made into good citizens cheaper and faster than any other of the people who have not yet shared the advantages of education.

"The lynching of negroes in the South is a barbarism that is without excuse, but the mountain people are not the ones who are guilty of such outrages. They are to be sharply distinguished from the 'poor whites' who lived in the lowlands in the midst of slavery.

"In the novel referred to I hardly think the career of 'Red Head' will excite emulation in the reader. And I am quite sure that the thousands of young men who carry revolvers in the mountains can be led to change their ideals of 'honor' by proper education in a single generation. They merit considerable regard of their fellow-countrymen."

### Dr. Clark Refused New Trial.

HENDERSON, Ky., Jan. 25.—Attorneys for Dr. W. E. Clark, sentenced to ten years' imprisonment, at a special term of the Webster Circuit Court, for the murder of Miss Cora Waller by performing a criminal operation, made a motion for a new trial. The motion was overruled and the case will go to the Court of Appeals. An order was made suspending judgment for sixty days, pending the action of the Court of Appeals.

A negro charged with insulting two young ladies came near being lynched at Glasgow Monday night.

### REPORTED KILLED.

U. S. Marshal Hollifield and Posse Clash With Moonshiners.

Later Report Says He Was Only Stunned by An Explosive Bullet.

A report from Jackson, Ky., dated Monday said that in a fight between revenue officers and moonshiners on Elkhorn creek in Letcher County Friday morning last, at daylight, Deputy U. S. Marshal, Thos. Hollifield and posseman Simon Combs were killed, possemen Rufus Wooten and Ambrose Ambury were wounded, and Blaine Combs was taken prisoner. It is not known whether any of the 'shiners were wounded. The captured now is believed to have been killed after he was taken. The posse at daylight saw a thin stream of smoke indicating the operation of the still. They slipped up on it, but had to cover an open space. As they made a rush across this space for the cave where the still was situated they were fired on from the top of the cliff. Hollifield was one of the oldest and most fearless of the enemies of illicit distilling. His home was in Knott county. A later dispatch says Hollifield was not killed but badly stunned by an explosive bullet and that one of the attacking party was badly wounded.

### Reduction in Revenue Lists.

The war revenue reduction bill as agreed upon by the Senate Finance Committee provides for a reduction of nearly \$40,000,000. Taxes are repealed on the following:

Promissory notes, mortgages, bills of lading for export, powers of attorney, protest, charter, party, certificates of all kinds, leases, warehouse receipts, telegraphic dispatches, telephone messages, passage tickets costing less than \$30, express receipts, bonds, except bonds of indemnity, legacies to religious, charitable, literary or educational institutions and commercial brokers.

### Social Happenings.

Misses Annie and Gertrude Caviness entertained quite a number of friends last Friday evening in very pleasant manner. Popular dances were indulged in until a late hour, and all present expressed themselves as having a fine time.

Miss Celeste Moore entertained the Carbons Club in a most pleasant manner last Friday evening. Although this is the third season that the Club has been holding its meetings, the interest does not seem to be lessened. The company came on a Sunday morning. Soda was never used, salaratus being used instead. Meat was plentiful, hogs in the yards remaining fat throughout the year. Deer and turkey were also found in the woods, though not in vast numbers at that time, yet it required no great skill to secure a good supply of venison. Squirrels were so numerous as to amount to a pest and furnished occasion for the children in keeping them from destroying the corn. The crocks, too, were full of fish, and nearly every family had a mess at least once a week. The land was raised and yielded the return for the partial cultivation it received. A plow with a wooden mold-board and an iron point being the best to be had; hoes were homemade and weighed six or seven pounds; harrows were made with wooden teeth, and pitchforks by selecting a sapling with a fork and shaving it into the proper size. No grass of any kind was raised, but every man had a patch of flax, which was pulled by hand, laid in a swath to rot, and at the proper time was tied in bundles and put away until needed, when it was "broke" by hand, "screeched," "hacked" and spun and woven into cloth for shirts, pants, tablecloths, etc. Nearly every family had a custom patch for producing cloth for dresses. Shoes were made at home both for everyday and Sunday wear.

## FIFTY YEARS AGO

### Ways of Living in Hopkins County Then—"Good Old Times" Had Their Drawbacks.

### OLD CUSTOMS GRAPHICALLY PORTRAYED

(Written for THE BEE.)

People living at the present time have but a faint idea of the hardships and disadvantages that our fathers and mothers were subjected to; and, while we don't claim to be very ancient, yet we have a very distinct recollection of a decidedly different state of affairs to that of today.

Fifty years ago such a thing as a frame house was unknown in the county. Instead, we had, for the most part, log cabins, which were of logs cut and "scalped," i. e., the sides slightly flattened. Instead of rafters, "ribs" were used, and on these were laid boards for the roof, which had to be flat enough to keep them in place, as nails were seldom used. A stick-and-dirt chimney was made by building up its walls with small timber, with rock and mud on the inside, up to the stem, the stem being constructed with split timber-battens. Floors were made by splitting slabs and snatching them as best they could with an ax. Window glass was seldom used; instead, shutters were made of boards and hung with leather hinges. Two rooms and a smoke-house were about all the average man desired. Cooking was done in the open fire place, stoves being almost entirely unknown. A skillet with an oven, coffee-pot, and—sometimes, but very rarely—corn-bread, corn-bread, hog-and-banana, but rarely biscuit, constituted the staple diet of the country. Sometimes a man with more pride and ambition would have a house of hewed logs, with a brick, or rock, chimney and floors of plank which had to be saved by hand with a whip-saw, one hundred feet being considered a good day's work for two men. Breadstuffs were ground by horse-power, at the rate of four bushels per hour. Wheat was cut with a scythe—a handfull at a time—bound and shocked when thoroughly dry. A yard was prepared by scraping the grass and weeds from a space about 100 feet in circumference. On this was placed enough straw to cover it about two feet deep. Horses were then rode around upon it until the grain was all out; the straw was, then removed, the wheat piled up in the middle of the yard, more wheat placed around and tramped on as before. When all was done, a fanning mill was procured and the wheat cleaned of chaff and at least part of the dirt, it was ground on a horse-power mill without any further cleaning. It was hand-bolted and taken home to be used as necessity demanded—when company came on a Sunday morning. Soda was never used, salaratus being used instead. Meat was plentiful, hogs in the yards remaining fat throughout the year. Deer and turkey were also found in the woods, though not in vast numbers at that time, yet it required no great skill to secure a good supply of venison. Squirrels were so numerous as to amount to a pest and furnished occasion for the children in keeping them from destroying the corn. The crocks, too, were full of fish, and nearly every family had a mess at least once a week. The land was raised and yielded the return for the partial cultivation it received. A plow with a wooden mold-board and an iron point being the best to be had; hoes were homemade and weighed six or seven pounds; harrows were made with wooden teeth, and pitchforks by selecting a sapling with a fork and shaving it into the proper size. No grass of any kind was raised, but every man had a patch of flax, which was pulled by hand, laid in a swath to rot, and at the proper time was tied in bundles and put away until needed, when it was "broke" by hand, "screeched," "hacked" and spun and woven into cloth for shirts, pants, tablecloths, etc. Nearly every family had a custom patch for producing cloth for dresses. Shoes were made at home both for everyday and Sunday wear.

and you might go to church or other gathering and not see a single pair of what was called "store shoes." In summer-time, boys of fifteen years and younger invariably went to church barefooted; and when a boy began to wear shoes he was said to have "set out." A wagon was a very uncommon thing, our wealthiest farmers having nothing better than ox-carts; buggies were extremely rare, and so rare that if anyone happened to come to church in one the moment he left it, it would be surrounded by a crowd of boys who examined it in every detail. Horses were plenty, but saddles scarce and costly. Tobacco seldom sold for more than two or three cents per pound; pork, two cents, and difficult to sell at any price. Eggs, butter, potatoes, and similar products, could not be sold at all. You could buy a sack of wheat for \$1.50, the very best for \$1.00; wheat was worth 20 cents per bushel—when it could be sold at all; corn had no selling value, and we have known it to be shelled by hand, ground on horse-sinck and hauled to the Ohio river and sold for 20 cents per bushel. A good horse sold for \$25, and the very best for \$75. Hand-made wagons were worth \$150. A two-horse wagon was unknown fifty years ago in this part of the country.

A good hand hired for \$10 a month, an extra stout one for \$12. Work on a farm was laborious—rolling logs, splitting rails, clearing ground, fencing etc.; raising hogs was also hard work. Every good farmer had to have a log-rolling in the spring; it would require one day, sometimes two or three, and even four, on each farm, to pile up the logs ready for burning. Every man for at least three miles around would be invited. A jug of whiskey was always a feature of the occasion, some believing that an occasional dram made them stronger and better able to endure fatigue.

The most modest time was laid in the fall, after the crops were gathered.

Corn was gathered, hauled and piled up by the crib. A night would be set (corn-shucking was invariably done at night), a few shuckers invited, and word sent out among the negroes that there would be a corn-shucking at a certain place, and every negro for miles around would come; they would begin to arrive as soon as it was dark, singly and in groups; a song would be raised (all joining in the chorus), the corn-pile surrounded and work commenced. Soon some one would find a red ear, when the cry of "drum! drum!" would be raised, and the bottle passed around. Every red ear was expected to produce a dram. Sometimes, when red ears were numerous, the bottle or jug would be reported empty, to keep all hands sober. Usually by 9 o'clock, 80 to 100 barrels of corn would be shucked. The negroes would then take the owner on their shoulders, carry him around and into the house and put him to bed; supper would be eaten and, after patting and dandling for an hour or two, they went as they came.

In those days schools and school-house were quite different from what we see now. A log house, with a "Punchen" floor, clapboard loft, weight poles, and the corners not square. Frequently the floor was omitted. A whole hog was sawed out to furnish light, and it was replaced with glass, but a wooden shutter. A huge fire-place, six or eight feet wide, built; trees of the proper size cut, split and the bark smoothed off, holes bored and legs put in, which served as seats; wooden pins were driven into the wall on which to hang baskets containing dainties.

The schoolteacher was absolute monarch, having sole control over the scholars. Anyone who could read and write and knew the multiplication table and had "ciphered to the rule of three" was considered amply qualified to teach school. We remember going to school to a teacher who told us when we came far as fractions that they were of no use.

## LOCOMOTIVE BLASTS.

General Manager Evans of the L. & N. made a trip over the Henderson Division last week. He made a stop of an hour or two at Earlington to inspect new depot and offices.

The new trains seem to be well patronized and that would indicate their continuance.

An addition to the depot at Morehead is now being constructed by the railroad building crew under Foreman Burly.

Business on the Henderson division continues to boom, and a look at the train register shows that numerous trains run daily.

Word received from Engineer Warner Campbell says he is getting along nicely on the L. H. and St. L., but like all others who were raised up on the L. & N. longs to get back to his first love.

Bus news of importance called Assistant Superintendent Dunn here last week. He is ever watchful of the company's interest.

The gross earnings of fifty-four roads for the second week in January were \$5,552,045, against \$7,066,017 for the second week in January, 1900, an increase of \$65,968. Forty roads show increases, thirteen decreases, and one no change. Since January 1 the roads referred to above earned \$1,748,389, an increase of \$1,521,329 over the \$15,255,100 reported for the corresponding period of 1900. For the longer period, forty-two show increases and twelve decreases.

Chicago, Ill., Jan. 27.—President Blaylock of the Illinois Central railway, thinks the consolidation of great railway systems is inevitable and is desirable. In discussing recent tendencies in this direction, he said: "Consolidation is coming. It has been coming for years, and I do not think that anything will arise to stop it. It is the result of natural

## DOWN IN THE MINES.

A writer in the United Mine Workers Journal takes a lick at Mr. Smith Dulbe of the Monarch mines and goes out of his way to malign and abuse him. We are proud of the fact that we have known Mr. Dulbe for about twenty years and during that time his record has been that of an upright Christian gentleman, and thousands of men in this and adjoining counties will corroborate this statement, but he needs no defense. He has laid himself liable to this line of abuse because he has refused to surrender soul and body to a gang of lawbreakers, who go around from place to place armed to the teeth and notwithstanding this fact profess to be men on a peaceful mission, who would do no act of violence to accomplish their purpose. What astounds the accuser is that his boss leader, Wood, has been accused of being a pauper and living on the bread taken from the miner and his family in need of same. Without bringing forth facts to prove a denial of same, he seeks revenge by abusing Mr. Dulbe.

The eighth wonder has probably been discovered right here in Hopkins county, and while we can not vouch for the truth of the statement it is said that one man who sometime ago joined the U. M. Workers had the honor and honesty about him to inform his employer of the purpose and at the same time pay up all his debts. What a contrast his action was to that of nine tenths of those who have become tried and true members of the pauper society. Their usual plan is to go in debt as deep as they can, and then take the bankrupt law by joining the U. M. Workers.

It is indeed a pitiful sight to see a member of the starvation society wending his way home from a visit to the handout headquarters with two small packages in basket and to be met at the gate of his home by the sad-eyed wife and half clad children. A man who would voluntarily place himself in such a condition commits a crime. Beware of the U. M. W.

The rumor is afloat that before Kinsinger left Central City the day before the serious difficulty occurred at Carbondale, he showed a large revolver he carried on his person and said he might get some of those "scabs" before he got back. Yet this same fellow claims to be out on a mission of love, working only by the use of peaceful means, but why carry a six-shooter if such is the fact?

Deputy Sheriff Rogers, of Oakhill also says he is always on the lookout for U. M. Workers, who may come there with the intention of causing trouble, and that he can in a few minutes notice summon a posse of twenty members of the faithful to his aid.

Talk is cheap, but it may be a dear way to seek revenge by making threats publicly against the coal operators of this county. Many are the threats being made by the U. M. Workers, if reports in circulation are true, against the lives of prominent coal operators.

Supl. Salmon, of the Crabtree mine has been on the sick list last week, but at this writing is reported better.

One of the drivers was severely injured one day last week by a mule kicking him in the head. It seems almost a bank mule can not be trusted.

A lover of liberty was last week heard to say that he would soon believe that the mine union would be so disrupted that he Hopkins county would ever be organized.

The efforts of the U. M. Workers to organize the county has given the operators a chance to weed out bad elements that sometimes creep in.

There is no doubt that the thousands of miners of this county are ready to take up arms in defense of their homes and families and the right to work for whom they please and at wages satisfactory to themselves. The very fact that he is in no humor to listen to the dictation of walking and talking delegates who draw salaries from workmen.

The coal business in Hopkins County, and we can truthfully say adjoining counties has been good the past week. A full force of men being at work at all mines in this county, and a fast increasing force of men at Providence mines. The demand for coal continues good and bright prospects are ahead for the miners.

**FOR USE IN EUROPE.**  
Coal beds have been found here and there near the sea in Arctic lands, and though the quality of the coal is not of the best, it has been exceedingly useful to a few Arctic exploring expeditions.

One of the latest examples is the steamer which carried fresh supplies to Mr. Peary in northwest

Greenland last year, and which found it very convenient to take on a lot of coal in the south Greenland before proceeding to Peary's headquarters.

In the European Arctic, on the other hand, attempts are now making to take the coal from the commercial account. The first experiment has not been encouraging, but the scene of activity has merely been transferred to another field.

About half way between Norway and Spitzbergen is an island on which some polar bears were seen when it was discovered, and the little speck of land was accordingly named Bear Island. It has been noted chiefly for the heaps of driftwood from Siberia that have lodged not only on the eastern coast, but have also been carried inland by big waves that sometimes overwhelm the lowest part of the island. Over two years ago the Scandinavian explorer Arntup made a careful survey and study of this island, and among the interesting things he found were beds of coal.

Theodore Lerner and the German sea fisheries union conceived the idea that it would be profitable to exploit these mines, and a company was organized for this purpose. Not a great deal of money was put into the enterprise, however, and the result of its preliminary work last year, in view of the inferior quality of the coal, the short working season and long-distance transportation, gave so little promise for the future that the effort was not renewed during the past season.

The Norwegians, however, have not been at all disheartened by the gloomy prospects of the German enterprise on Bear Island. There are larger and more promising coal fields on the southwest coast of Spitzbergen, and Norwegian vessels during their fishing cruises have been giving them particular attention as a possible source of profit.

There is now much confidence in Norway that money may be made in Spitzbergen coal mining, and the result is that during the past season several companies have been formed for the purpose to carry on mining operations in these new fields.—N. Y. Sun.

A funny story is told on Gen. Alger to the effect that he or his agents were induced to buy coal lands in the State of New York, and the coal mined and sold at a profit.

The Virginia Iron, Coal and Coke Company has completed 150 coke ovens at Looney creek near Big Stone Gap. They were to have been put in last week.

A young coal miner of Scranton, Pa., was lost in the mine a week and when found was a chattering madman on a pile of "gob." He could give no account of how he became lost in the mine.

We want to call the attention of THE BEE readers to a portion of the report read at the annual meeting of the U. M. Workers held at Indianapolis last week. A doleful sound it must have been indeed to them. The very fact that the reason of the order had been taxed to its utmost capacity to secure success, and then be compelled to admit defeat and cry aloud for advice and help, must have been almost a heartbreaker for them. After two years the admission must be made that more miners were at work and the production of coal greater than before the strike was ordered. With hundreds of miners and their families on their hands as objects of charity, they were, indeed, confronted with a serious problem as to what was best to do. Of course, they will publish to the world that the strike in the Southwest will continue and that the miners will still continue to receive their weekly allowances of forty-two cents; but the admission made that the strike is virtually a failure, will cause the donations to cease for a certain extent. Here read the report:

"The Southwest strike, which was inaugurated March 1, 1899, is still in progress in Arkansas and Indian Territory, although in Kansas and Missouri an agreement was reached for their settlement. The strike reduced the rate of mining, reduced the hours of labor, and authorized the employment of black-whites and the collection of dues wherever the employees so desired. But, notwithstanding the fact that we exerted

every possible effort, our endeavors to reach an amicable settlement in District No. 21 proved unavailing; and over 900 men are still idle, with no immediate prospect of settlement. The National Executive Board have offered to remove these men to other districts where employment in Union mines can be secured, but as many of them own their own homes and plots of land, they are very reluctant to do so elsewhere.

In connection with the Southwest strike I desire to report that a greater number of men have been engaged to carry on mining in the mines of the Southwest and more coal is being produced than before the strike was inaugurated; and I am free to confess that I am at a loss to know what further steps should be taken to continue the contest. I, therefore, refer it to the convention, with the recommendation that you give it your most careful consideration.

## To Mothers of Large Families.

In this workaday world few women are so placed that physical exertion is not constantly demanded of them in their daily life.

Mrs. Pinkham makes a special appeal to mothers of large families whose work is never done, and many of whom suffer, and suffer for lack of intelligent aid.

To women, young or old, rich or poor, Mrs. Pinkham, of Lynn, Mass., extends her invitation of free advice. Oh, women! do not let your lives be sacrificed just to a word from Mrs. Pinkham, at the first approach of

weakness, may all your future years with healthy joy.

"When I began to take Lydia E. Pinkham's Vegetable Compound I was not able to do my housework. I suffered terribly at time of menstruation. Several doctors told me they could do nothing for me. Thanks to Mrs. Pinkham's advice and medicine I am now well, and can do the work for which I am fitted."

"I would recommend Lydia E. Pinkham's Vegetable Compound to all mothers with large families."—Mrs. CARRIE BELLVILLE, Ladington, Mich.

every possible effort, our endeavors to reach an amicable settlement in District No. 21 proved unavailing; and over 900 men are still idle, with no immediate prospect of settlement. The National Executive Board have offered to remove these men to other districts where employment in Union mines can be secured, but as many of them own their own homes and plots of land, they are very reluctant to do so elsewhere.

In connection with the Southwest strike I desire to report that a greater number of men have been engaged to carry on mining in the mines of the Southwest and more coal is being produced than before the strike was inaugurated; and I am free to confess that I am at a loss to know what further steps should be taken to continue the contest. I, therefore, refer it to the convention, with the recommendation that you give it your most careful consideration.

Cablegram Addressed to Congress

Read in the Senate by the Presiding Officer.

THE DAY OF PEACE SAID TO BE DAWNING.

The Directory of the Federal Party Research Council, which was read in the House of the President the Power to Establish Civil Government When the Time is Opportune.

Washington, Jan. 26.—In the senate, yesterday, the presiding officer, Mr. Frye, called attention to the following cablegram, which was read:

Manila, Jan. 25. President of the Senate and Speaker of the House of Representatives.

There are precedents to the federal party by thousands in all parts of the archipelago. The attitude of the Philippine revolutionaries and the general public opinion show that the labor of the party to bring peace will soon be crowned with success. Call now political parties have attempted formation on plane more or less questioning American sovereignty. Our platform makes plain peace sovereignty of the United States with liberty to election to pursue peacefully his political aims.

The hour of peace has sounded, and our platform are grouped many Filipinos at Alberto revolutionaries. But some more obstinate desire to join, for though willing to accept the sovereignty of the United States, the prospect of indefinite continuation of military government.

These men desired the purpose of the United States and have submitted without giving the people authority to the usual powers, and the postponement of a new congress will certainly continue the United States with liberty to election to pursue peacefully his political aims.

## FIFTY-SIXTH CONGRESS.

Second Session.

In the senate, on the 25th, the shipping bill, which was introduced by Senator Depew, delivered a characteristic forecast and eloquent address of one of the support of the measure as a means of rebuilding the American merchant marine. The Indian appropriation bill was taken up, but little progress was made. The last hour of the session was devoted to the passage of private pension bills. In the house the conference report upon the army reorganization bill was adopted after a brief contest. The naval appropriation bill was finally passed, and was also private pension bills.

In the senate, on the 26th, the entire day was devoted to consideration of the Indian appropriation bill. The chief feature of the debate was a sharp attack by Mr. Patterson of the Dawes commission, which he said was detrimental and was accomplished in the way of results. In the house the naval appropriation bill occupied the entire day, and its consideration was completed with the exception of one paragraph. Mr. Cannon (Ill.) sounded a note of warning as to the rise of the growing annual appropriation, which he thought should provide for American register for the foreign-built barkentine J. C. Fluor, a ship which had been captured by the United States navy, and made an effort to secure consideration of conference report on the army reorganization bill, but objection was made and report was laid over. The Indian appropriation bill was then taken up. In the house the bill to revise and codify the laws relating to the Indian appropriation bill was taken up. The bill was passed by a vote of 215 to 191. The bill was passed by a vote of 215 to 191.

In the senate, on the 26th, the entire day was devoted to consideration of the Indian appropriation bill. The chief feature of the debate was a sharp attack by Mr. Patterson of the Dawes commission, which he said was detrimental and was accomplished in the way of results. In the house the naval appropriation bill occupied the entire day, and its consideration was completed with the exception of one paragraph. Mr. Cannon (Ill.) sounded a note of warning as to the rise of the growing annual appropriation, which he thought should provide for American register for the foreign-built barkentine J. C. Fluor, a ship which had been captured by the United States navy, and made an effort to secure consideration of conference report on the army reorganization bill, but objection was made and report was laid over. The Indian appropriation bill was then taken up. In the house the bill to revise and codify the laws relating to the Indian appropriation bill was taken up. The bill was passed by a vote of 215 to 191. The bill was passed by a vote of 215 to 191.

## BIG FIRE AT DES MOINES.

Over Half a Million Dollars' Worth of Business Property Goes Up in Smoke.

THE INSURANCE WILL COVER THE LOSS.

The Fire Started in Frankel Bros' Department Store, Which was Entirely Destroyed, While Several Other Concerns in the Vicinity Suffered Serious Damage.

Des Moines, Ia., Jan. 26.—Frankel, which broke out early in the morning, destroyed a department store, corner Sixth and Walnut streets, destroyed over a half million dollars' worth of property.

The fire was first discovered by a patrolman at 3:05 a. m., in the corner of the clothing department, coming direct from the basement. It was at a moment before the whole building was in flames. Every available fireman in the city was ordered out, but the structure was doomed before they arrived, and their attention was largely devoted to saving the adjoining structures, consisting of the Des Moines national bank, the Ulca Clothing Co., and the Seelye department store. By six o'clock a solitary wall of the six-story Frankel building was left standing, and the firemen pulled the structure down. Not a dollar of the \$100,000 stock was saved, and the destruction of the property is complete. The first national bank building, which is directly across the street, caught fire, but after a hard struggle was saved, although damaged to the extent of several thousand dollars. The Ulca Clothing Co., the Seelye department store, upon the adjoining corners, suffered similarly in the damage to stocks and fixtures.

The loss to the Frankels is estimated at \$775,000, consisting of \$225,000 on the stock and \$550,000 on the building. The firm has announced already that they will rebuild.

The destruction of the electric, telephone and telegraph wires as a consequence of the fire led to a temporary abandonment of the street car service and the operation of many factories dependent upon power furnished them.

The heaviest losses are: Frankel Bros., \$775,000; Younker Bros., \$45,000; A. J. Fredrich, stock, \$35,000; Ulca Building Co., \$100,000; C. H. Beeley, \$10,000; Des Moines national bank, \$5,000; Marx building, \$3,000; Sheer building, \$3,000; C. W. Rogg Co., \$10,000; Iowa Telephone Co., \$7,000; Des Moines City Railway Co., \$3,000; losses to occupants of office rooms, \$60,000.

Later—a detailed account of the insurance and estimates on the loss of the fire given out place the total loss of property at \$852,000, with \$100,000 of the loss covered by insurance. The Frankels estimate their loss at \$750,000, covered by \$300,000 insurance.

THE FULL EXTENT OF THE LOSS.

Sentences Imposed Upon the Participants in the Patterson (N. J.) Tragedy.

Patterson, N. J., Jan. 26.—Walter C. McAllister, William A. Death and Andrew J. Campbell, who were found guilty of murder in the second degree for the killing of Jennie B. Patterson, by a jury of twelve men, were sentenced to life imprisonment in the state prison.

McAllister, Campbell and Death were sentenced to 10 years imprisonment each for the same crime. The jury also found Campbell guilty of the same crime, but he was sentenced to 10 years imprisonment.

## ANNOUNCEMENTS.

**COURT CASES.**  
GILLILAND.—We are authorized to announce John K. Gilliland, of Italy, Precinct, No. 25, as a dress St. Charles, a candidate for County Clerk, subject to the action of the republican party.

The Lexington people still insist that city is not the wickedest in this country. Having Frankfort for such a near neighbor must lend strength to their vociferous denials of such a distinction.

**FEAR** political legislation threatens to break loose in the Indiana legislature. A bill is proposed to compel the Governor to return ex-Gov. W. S. Taylor and ex-Secretary of State, Chas. Finley to Kentucky.

SOMEbody has said that Judge, or "General," Clifton J. Pratt would be a candidate for United States Senator, providing the next Legislature is of the right political complexion. Well, who would, or could, make a better one? Fact is, there will be some several candidates for this most important place, if the Legislature is right. But, when the Judge is restored to his rightful Attorney-Generalship—well, he'll deserve to be made Senator.

DISPATCHES from several Kentucky and other southern points tell of the visitation of agents for sugar plantations in the Hawaiian Islands, seeking for colored laborers to transport. A party of thirteen negroes are reported as having started from Hopkinsville Sunday, and it is said two hundred had agreed to go from there but were prevented by silly rumors that they would be sold into slavery. Of course such rumors are silly. But it is not silly that negro laborers should decline to go on such a long journey in search of remunerative work. There is any amount of work to be done by such labor all through the south and the opportunities are improving all the time. Very likely Hopkinsville affords many negroes, who are not employed at anything—while men, too, for that—and could spare a few of all colors without public injury, for deportation to the Pacific Isles. The negroes of the south can make good livings for themselves and families, and could learn a valuable lesson from the numerous thrifty, sober colored men of Earlington and Hopkins County.

## Equal Rights of the U. M. W.

In the Webster county jail three members of the United Mine Workers are confined. One of these men attempted to assassinate a watchman at the Providence mines. The others attempted to intimidate a lot of men engaged to work in the mines. These men are consistent members of the U. M. W. Their "peaceful" persuasion is made with guns in their hands or concealed on their persons.

At Madisonville three men who are officials of the U. M. W., drawing \$2.50 a day and expenses, are under bonds accused of serious crimes. The money for these bonds was taken from the funds of the organization.

Why should the paid officials, Chappel, Kissinger and Nichols be given bail money and the Webster county law breakers the jail? The order of U. M. W.

AN ELECTRIC ENGINE UNDER GROUND.

The adoption of electricity as motive power goes on apace—and a pretty lively pace, too. The field appears to be without limitation. From the dimmest Christmas tree to the monster engine of mill or factory in a wide range, yet the magic fluid has compassed its end, and the end is not in sight. One of the latest adaptations of the wonderful power is the use to which it has been put in collieries, as shown in the illustration. This engine is employed to draw the cars in which the coal is carried from the various rooms and drifts to the incline plane or shaft through which it passes to the surface. The engine receives its current from a trolley which is shown in the picture. This is a distinct advance over the old method of drawing the cars by mule power. The photograph from which this illustration was made was taken by flashlight at a depth of 400 feet from the mine's mouth.

claims "equal rights to all and exclusive privileges to none." To a man up a tree it looks as if it should read, "all rights and all the cash to the paid officials, and all the jail to the common members."

Chappel, Kissinger, Nichols, et al. came to Hopkins county from Indiana and various counties in the State, carrying numerous concealed weapons, to take charge of our greatest industry. Many of these fellows and their confederates talk glibly of killing "scabs" and operators if they persist in remaining at work and refuse to accept the dictation of the meanest set of blackguards that ever visited the county.

Jim Woods, last week, brought sixteen more of his "peaceful missionaries" to this county to help the gang already here evangelize the non-union men. It is reliably reported that there would have been eighteen men, instead of sixteen, but for the fact that two of the Mud River fellows got so drunk they couldn't take the train. It is also reported that the sixteen who came were "fixed for scabs" and deputies.

The people of Hopkins county are law-abiding and believe in order. The non-union mine workers of the county, two thousand in number, do not want the U. M. W. organization but they do want to be let alone. They have submitted to the meanest insults and the most vicious threats from the gang led by Woods et al. and are getting very tired. Let the "fixed-for-scabs-and-deputies-sheriffs" gang beware.

## POLITICAL POINTS.

BEX. D. RINGO, a lawyer of Hartford, and a very popular ex-newspaper man, has been named by Gov. Beckham to be Chairman of the State Board of Equalization.

Judge Polk Consler has also been announced for County Attorney in Christian county. The race for nomination lies between him and the popular present incumbent, Otto H. Anderson.

HON. R. W. SLACK, of Owensboro, will move to Louisville and there make his future home. His removal will make a vacancy in the Legislature from Owensboro district, but it isn't likely to be filled before the regular election, since there will hardly be another extra session called.

McKenzie Moss is busily engaged having depositions taken to gather evidence in his contest against John S. Rhea for the seat in Congress which the latter said he won fairly in the third district.

John Burke, Superintendent of Public Instruction; Walter Day, Treasurer; J. W. Throckmorton, Superintendent of Agriculture, and John S. Sweeney, Auditor,

the State officers who were elected in November 1899 held a meeting at Lexington last Friday to consider the proper legal steps to be taken to get the cases before the Court of Appeals for a rehearing. Another meeting will be held in Louisville this week.

## The Pratt Contest.

FRANKFORT, KY., Jan. 25.—The transcript of the record in the appeal of C. J. Pratt vs. R. J. Breckenridge, Attorney General, was filed in the Clerk's office of the Court of Appeals this morning, the appeal granted and the case entered on the appearance docket for the April term. E. L. Mottly, of Bowling Green, is the sturdy on superseas bond filed by Judge Pratt.

The case will likely have to take its turn with other civil cases, and it may be a year before it is decided.

Judge Pratt, it will be remembered, was the only one of the Republican State officials elected in November, 1899, who did not push his contest to a close at the time when the offices were seized by the Democratic claimants in March of last year.

Charles Slusher who was sentenced to six months in the workhouse for election violation in Louisville is quoted as saying that he does not expect to serve out the sentence. "An' if I should happen to go up," he said, "I won't be there two hours before Beckham turns me loose."

Henry E. Youtsey's case will come up for trial at Georgetown next Tuesday and a jury will be asked for to inquire into his sanity.

## A Good Thing.

German Syrup is the special prescription of Dr. A. B. Boecher, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in medicine. It quickly cures Coughs, Colds and Lung troubles of the severest nature, removing, as it does, the cause of the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidly increasing sale every season confirms. Two million bottles sold annually. Boecher's German Syrup was introduced in the United States in 1868, and is now sold in every town and village in the civilized world. Therefore does will relieve any ordinary cough. Price 75 cts. ## Catholics Will Rebuild.

Princeton, Ky., Jan. 27.—The Catholics of the city are making preparations to rebuild their church. The structure will be of brick, and will be commodious and centrally located.

## Recommended.

A Popera man lost a small opal set out of his ring and went to the jeweler to have it replaced. Returning home he found the lost set and, putting it in his mouth for safe keeping, hurried back to the jeweler's to have that set used instead of the new opal. Rushing into the store he said: "Say, I've found the old set, so don't use that new one." He attempted to remove the stone from his mouth, gave a gulp, looked sheepish, and said: "I guess you'll have to use the new stone."

That man needed a bottle of Dr. Caldwell's Syrup Pepsin. Sold at St. Bernard drug store.

### SHORT LOCALS.

J. R. Dean has been confined to his home with a gripe the past week. Earlington has had her full share of grip suffers during the epidemic of that disease which is now sweeping over the country.

Miss Anna Cowell led the Christian Endeavor prayer meeting Sunday evening, which was one of the most largely attended meetings that has been held for sometime. Miss Letitia Dean will be the next leader.

The District Conference of the Epworth League will be held at Madisonville next Saturday. The Leagues at Madisonville and Nebo will send delegates, and Rev. B. M. Currie will represent the League at this place.

Rev. J. A. Burden left last Saturday in answer to a call to Mt. Vernon, Ind., where he will hold a series of meetings. He takes journeys over the river and seems quite popular with the people of his denomination in Hoosierdom.

Glady's, the three-year-old daughter of Mr. and Mrs. Y. Q. Walker, received a severe cut on the forehead by falling against an iron bed while playing at home Saturday. Dr. Reul took a few stitches in the cut, and it is hoped it will soon heal.

Delmar Dixon, of Dixon, who last June graduated at West Point Military Academy, commissioned Lieutenant and sent to Puerto Rico, was in command of the troops sent to keep down the rebellion of the Creek Indians, reports to Secretary of the Interior Hitchcock that the matter was badly exaggerated.

A wild rumor was about last Friday morning about an alleged shooting scrape at Providence, which investigation proved to be groundless. All that happened was, that a gun was discharged accidentally and some of the shot struck the sole of another man's shoe. The man himself did not receive a scratch.

Garid, the six-year-old son of Mr. and Mrs. William Barnes, of Springfield, Tenn., died of whooping cough Friday. Mrs. McCarley and Miss Claude Grainger left for Springfield as soon as possible after the message. Before her marriage, Mrs. Barnes was Miss Pearl Grainger, and has many friends here who deeply sympathize with her in the loss of her eldest child.

### PERSONAL.

E. McLeod was in town Monday. C. H. Murphy, of Madisonville, was in the city on business one day this week.

Miss Clara Livingston has returned to Hanson after a visit to relatives here.

R. H. Harrison, of Madisonville, attended the entertainment of the Earlington Home Talent Dramatic Club Thursday night.

Jerrold Jonson was in the city Sunday evening.

Rev. B. M. Currie went to Nebo last Wednesday and remained over Sunday to fill his appointment here.

Mrs. E. L. Stokes and children are visiting relatives in Crofton this week.

Miss Maude Barnett spent last week visiting her sister in Madisonville.

Miss Bettie Victory was in Madisonville one day this week.

Ed Brodie was confined to his home a few days this week with the grip.

Misses Lizzie Huff and Mattie Tannah visited in Nashville last week.

Miss Maude McMullin, of Solvay, visited friends here this week.

Virgil Fox was in town Tuesday. Dan M. Evans spent last Thursday in Evansville.

Mrs. Ben W. Robinson returned Tuesday from a visit to relatives in Hopkinsville.

A Prominent Chicago Woman Speaks.

Prof. Rosa Tyler, of Chicago, Vice-President Illinois Woman's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold this winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and my cold medicine again." For sale at St. Bernard drug store, Earlington; Ben P. Robinson, Morton's Gap; George King, St. Charles.

### "Uncle Billy" Bunin Dead.

"Uncle Billy" Bunin, mention of whose illness was made in THE BEE several weeks ago, is dead. He died last Tuesday, at the age of eighty-four years, his death probably resulting from old age. He was well and favorably known throughout Hopkins county, and in his younger days held the position of county surveyor for several years. Uncle Billy was a unique character, was a great lover of the "fiddle" and has several times, while visiting the family of his son at this place, rendered some of his favorite selections for THE BEE force. He was a good old man, and will be missed by many of the old citizens of the county.

### Glorious News.

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brower of scrofula, which had caused her great suffering for years. Terrible sores, which would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by St. Bernard Drugstore. Guaranteed.

### E. L. Barnes Dead.

Nortonville, Ky., Jan. 28.—Mr. E. L. Barnes died suddenly at his home yesterday morning just after he had had gotten out of bed. The deceased was more than seventy years old. The remains were interred at New Salem.

### A Life and Death Fight.

Mr. W. A. Hines, of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in Consumption. I had frequent hemorrhages and coughed blood for a day. All the doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost \$500 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat, Chest and Lung troubles. Regular size 50c and \$1.00. Trial bottles free at St. Bernard Drug Store."

### Fear'd Slavery.

Hopkinsville, Ky., Jan. 28.—A party of thirteen negroes left here Sunday for Honolulu to work on a sugar plantation. Two of the party agreed to go, but at the last moment owing to silly rumors that they were to be sold into slavery, nearly all backed out.

### He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, O., after suffering 15 months from Rectal Fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Buckle's Arnica Salve, the surest cure on earth, and the best Salve in the World. 25c a box. Sold by St. Bernard Drugstore.

### Resignation Accepted.

Hopkinsville, Ky., Jan. 28.—Dr. C. H. Tandy's resignation as Captain of Company D, Third Kentucky Regiment, has been accepted by Mr. Beckham. His successor will be elected Thursday night.

### The Appetite of a Goat.

Is envied by all poor dyspeptics whose Stomach and Liver are out of order. All such should know that Dr. King's New Life Pills, the wonderful Stomach and Liver Remedy, gives a splendid appetite, sound digestion and a regular bodily habit that insures perfect health and great energy. Only 50c. at St. Bernard Drug Store.

Rev. Anna Shaw will lecture in Madisonville on Wednesday and Tuesday evenings February 11 and 12, for the Woman's Christian Temperance Union. She is one of the national organizers and is highly spoken of as a lecturer.

### To Whom It May Concern:

We wish to notify the citizens of this county that we have secured the agency for Dr. Caldwell's Syrup Pepsin, the great cure for Constipation, Indigestion, Sick Headache and Stomach Trouble, and guarantee to do as recommended. We always keep the best drugs on hand and send a call, promising the very best of everything. Yours truly, ST. BERNARD DRUG STORE.

It is now given out that President Kruger is coming to America in February to see the interest of South Africa independent.

Save doctors' bills by giving Foley's Kidney and Urinary Tablets to children in time to prevent pneumonia or croup, which are fatal to many thousands of babies. John N. Taylor.

### CARVED WITH A RAZOR.

Walter Morton Badly Cut by Albert Hawkins Tuesday Morning.

Shortly before noon Tuesday Albert Hawkins inflicted several cuts with a razor on Walter Morton's face and neck at Susie Offutt's boarding house. Both are colored. Morton received cuts across his forehead down by the side of one eye, through the cheek and down the turn of the jaw toward the neck, also across the neck under the left ear. Although terribly cut and bleeding he chased Hawkins with a rock down town and into the arms of Marshal Coyle and was so fierce that the latter, who had arrested Hawkins had to step Morton at the point of his revolver.

Hawkins claims that Morton threatened to kill him and struck him twice before he, Hawkins, picked up a razor off the mantle and used it. Hawkins had, earlier in the day, reported to Marshal Coyle that Morton was giving him trouble. Morton claims Hawkins' attack was not provoked. Dr. Chatten had to put many stitches in Morton's face.

### REV. THOMAS E. YOUNG

Died at the Residence of Burr Young near Morton's Gap Sunday.

Rev. Thos. E. Young, one of the active gospel pioneer ministers in this section of Kentucky, died Sunday morning at the home of Burr Young, his son, near Morton's Gap. He had been in ill health for a long time and had been for many months disabled from the ministry. But while strength remained to him he devoted it all to the life-work of a Cumberland Presbyterian minister. His home was formerly, and for many years, in Madisonville. For more than sixty years he was an earnest preacher of the gospel. He was over eighty-seven years old, having been born September 18th, 1812. Deceased was the grandfather of Thos. Young, Jr., of this place.

### INDICT COMMISSIONERS

For Permitting Sewage of Lakeland Asylum to Flow into Ohio River.

LOUISVILLE, KY., JAN. 28.—Prosecuting Attorney Parsons said this afternoon that the grand jury had been ordered to indict the commissioners of the Lakeland asylum for maintaining a common nuisance. The reason of the indictment is, that the sewage from that institution is allowed to pollute the waters of the Ohio and endanger the health of Louisville and other cities.

Usually a racking cough and a general feeling of weakness. Foley's Kidney and Urinary Tablets are guaranteed to cure the worst "gripe" cough, and nerve and stomach ailments. John N. Taylor.

# The Making of Good Coffee

Begins in the growing. Anywhere between the plantation and the coffee pot the flavor may be changed, the quality spoiled by carelessness, inexperience, or unscrupulous methods. From the time Arbuckles' Coffee leaves the hands of the grower until it reaches the user in a sealed packet, it is handled with the same watchful care, the same thought for cleanliness, that you would give any article of food that goes on your table. That's the reason it costs the grocer a cent a pound more than its cheap imitations. The extra cent you pay for

## ARBUCKLES' Roasted Coffee

buys much more than a cent's worth of quality and strength. A pound of Arbuckles' Coffee will give you more cupfuls of better coffee than you would get from other package coffees.

Be sure you get Arbuckles' Roasted Coffee. Other package coffees are but imitations of Arbuckles'.

In each pound package of Arbuckles' Roasted Coffee there is a list of articles. With each package in which the list is found the purchaser has bought a definite part of some article to be selected by him or her from the list, subject only to the condition that the signature on the package is to be cut out and returned to our Notion Dept. You should see this list. Address all communications to

Invariably cures any cold in 12 hours. It neither causes nor cures. Price 25 cents.

The Chicago council has passed an ordinance forbidding spitting on the sidewalks or in any public places. The prevalence of grip and pneumonia is considered cause for the enforcement of such an ordinance.

### A Woman's Weariness.

Women's sensitiveness make them subject to more intense weariness than men. The melancholy, depression and exhaustion they suffer is due to sluggish action of their organs, which loads the system with impurities, poisons the blood and shatters their nervous. Morley's Sarsaparilla and Iron will cleanse the system, revitalize the nerves and give strength and energy. Sold by John N. Taylor.

## SOMEWHAT EXAGGERATED.

The Situation in the Creek Country Has Been Colored by Correspondents.

NO VIOLENCE HAS YET BEEN DONE.

The Presence of United States Troops at Henrietta Likely to Have Good Effect, Dispel the Some of the Exaggeration Created by Crazy Snake's Stories.

Kansas City, Mo., Jan. 27.—A staff correspondent of the Star, sent into the Creek country, to investigate the trouble among the Indians, writes as follows:

Muskogee, I. T., Jan. 26.—That the situation regarding the Creek Indian uprising has been somewhat exaggerated by certain correspondents there can be no doubt. It is true the Indians are restless, but so far no violence has been done and it is questionable if a shot will be fired. However, the Snake band is well organized, and it is likely should get among them, or some deputy should become indiscreet there might be some trouble.

No General Uprising Probable. But a general uprising at the present time is out of the question. The presence of the United States troops at Henrietta is found to have a good effect, not that they will necessarily be needed to do any actual fighting, but by being there the Indians who have taken Crazy Snake's word as gospel will be convinced that the president of the United States has not given Snake the authority to make Creek laws, as he has been claiming.

One of Crazy Snake's Stories. Probably the most important feature of the situation this morning is the rumor regarding William A. Jones, commissioner of Indian affairs at Washington. Crazy Snake is contending that when he was last in Washington he called upon Mr. Jones and prayed to him for relief from the unjust terms of the Curtis act. He says that Mr. Jones told him to return home and that the Creeks might make their own laws, as heretofore. Snake not only insists that this is true, but that he has signed letters from Jones to prove his assertion. However, no one who has seen these letters can be found.

There is statistics in it. Politics, it is said, have entered somewhat into the exaggerated reports sent out from this section. The present United States marshal, Leo E. Bennett, has a bitter enemy and his enemies, it is said, have been giving color to the sensational reports and saying that another marshal would have made wholesale arrests from the start and thereby put a stop to even the suspicion of an uprising.

## GONE TO JOIN THE TROOPS.

Stories Told by Creek Chiefs—Surveying Discontinued in Disturbed District.

Muskogee, I. T., Jan. 27.—United States Marshal Bennett, with six deputies and Constable Hubbard, United States Commissioner Simpson and T. W. Gully, left yesterday for Henrietta, 50 miles distant, where they will join the troops sent to quell the Creeks. They will go overland and to a camping outfit, commencing 20 Winchester and plenty of ammunition.

Just before the start was made a telephone message was received from Choctaw, saying the following notes had been posted there after the Snake council occurred at Hickorytown yesterday:

"NOTICE, read, To All, Presents: White citizens and friendly Creeks should be dealt with according to the old Creek laws, and not according to the Creeks and Chief Porter.

(Signed) "LATAH MEKKO, Second Chief."

The law commission yesterday ordered a discontinuance of the surveying in the disturbed district. Mose Lyon, in charge of a party that arrived here today, states that a number of light horsemen are still riding over the country. They are heavily armed, but are not doing any damage, confining their attacks to the members of the Snake band going to and from the meetings at Hickory ground.

It is believed that the worst is over, but Marshal Bennett has his best deputies with him, and if he encounters trouble will put up a strong fight. It is his purpose to join the soldiers at Henrietta and work with them in making arrests of the leaders of the uprising.

Loss of the Pecora Revenue Office. Peoria, Ill., Jan. 28.—The exact loss sustained by the revenue office from the visit of the robbers, Friday last, has been determined to be \$1,370. The staff taken consists of revenue stamps of various denominations, which were carried off by the robbers in the original packages.

Philippines Swearing Allegiance. Iloilo, Island of Panay, Jan. 27.—Upwards of 50,000 Filipinos have sworn allegiance to the United States in Iloilo province. Thirty were sworn at Santa Barbara Prison.

Heavy Gale Over the Channel. Paris, Jan. 28.—Dispatches from the Northern coast show that there was a heavy gale over the channel yesterday and that several small boats were lost.

## CRAZY SNAKE KEEPS MUM.

The Leader of the Recalcitrant Creeks a Prisoner and in a Sulky Mood.

Henrietta, I. T., Jan. 28.—Chito Harjo, or Crazy Snake, the leader of the warring Creeks, who is a United States prisoner here, remained sulky to-day, and refused to confer with Lieut. Dixon. It is believed, however, that the wily chief will, sooner or later, show a friendly spirit, and the result will be a prompt ending of the insurrection.

It is argued that Harjo and his followers have been taught to have a greater respect for the army officer than for deputies, believing that the soldier is more apt to treat them fairly. This has been brought about not by the marshal's actions, but because a deputy here and there in the past has not acted wisely toward them.

The news of the capture of Harjo reached Henrietta last night. When the chief, mounted and surrounded by four deputies, appeared at the tent of Lieut. Dixon, he was greeted cordially. Fifty soldiers, grouped about a camp fire, sang "The Blue and the Gray," while Lieut. Dixon made friendly overtures to the prisoner.

## FIFTY YEARS AGO.

(Continued from First Page.)

erty, and that our knowledge of mathematics was sufficient for any practical purpose.

Books were scarce, one reader, and one arithmetic answering for an entire family, it being unusual to see two studying the same book at the same time. The scholars would begin to arrive at school directly after daylight and continued to come until about 10 o'clock. School began when the first scholar got there and continued, with the exception of one hour at noon, until sunset. Many of them had to come three or four miles and some even further. Three months was the limit of the session. We had no free school. Such is the advantage of fifty years ago.

Church houses were rare and preaching still more so. The buildings were similar to the school houses and in fact they were nearly always used for both. As we have said before preachers were scarce, and occasionally one would come along when word would be passed that we would have "meetin'". At a specified time and place the people would assemble at an early hour, frequently by 9 o'clock, a. m. Services would begin immediately and continue until the middle of the day, when a recess would be taken for dinner which was nearly always served on the ground. After dinner the congregation would again assemble and services would continue until four or five o'clock when they would go home to reassemble about seven p. m., and continue until about ten or eleven o'clock p. m., when they would go home and to bed to meet again with the first preacher that came along. The male portion of the congregation would be clothed in brown jeans woven at home by the "wimen" folks and colored with walnut bark or the hull from the green nut. A great deal of pride and skill was displayed in getting the right color.

Sometimes when an extra nice suit was desired, "blue mixed" was used, but as this required indigo, and indigo cost money it was seldom used except for Sunday suits. Overcoats were almost wholly unknown. We well remember when there was but one overcoat within my knowledge and that was used only on rare occasions. In lieu of an overcoat, blankets were used. A square blanket would be procured, a hole cut in the middle, bound around with tape, the owner then stuck his head through this hole and that answered every purpose. As there was a great variety in color, blue, green, yellow and even red, the effect was very picturesque. Boots were unknown, while shoes were worn without exception among the women.

Great skill and pride were exhibited, and while we rail at the devotees of fashion of today, they were just as particular at that time in following fashions as they are today. As we mentioned elsewhere, much of their dressing was manufactured at home, and they took great pains in weaving to have the stripes and check just of the right kind. Twice each year they were trading, spring and fall when home production would be exchanged for "store goods" and then for many days on their return consultations were held as to the latest styles of dress. Merchants only bought goods twice a year, and most all of the goods were bought at Philadelphia, shipped to Henderson and from there hauled on wagons to this county. It was no small job to bring them here, the roads frequently being muddy, and it would require four days to make the trip. Much more could be said of the customs of fifty years ago. We have written nothing but what we have witnessed.

Those times are passed never to return as we are glad, as we have no disposition to again encounter the difficulties which we then encountered. We enjoy more advantages today in every respect than we did then, or, at least it looks so to

audience of our best people and they gave the most hearty support to the young (except Judge Cowell) players. If the writer attempted to speak of the good amateurs by name it would call for an enumeration of the entire cast. They were all good and promising. All they require is practice and a little more vigor of voice. One of the best things about the whole affair is the promise of more and better plays in the future. The club has invitations to go elsewhere, too, and Montone Gap and St. Charles may possibly receive visitations. The very laudable purpose to which the funds raised are to be applied excites the interest, too, of every public-spirited citizen. The entertainment added greatly appreciably to the fund for the beautifying of our new Opera House.

#### 'Almost Blind.

My little four year old girl's eyes were so weak from birth, that she could not stand any light at all. Was treated by several physicians without benefit. My neighbors induced me to buy Morley's Sarsaparilla and Iron from Mr. O. Daugherty, Banook, Ky. Three bottles only restored her sight, but made her stronger and healthier than she ever was in her life.

#### Married in Evansville.

Mr. Claude H. Garrett, of Madisonville, and Miss Minnie Garrett, of Providence, were married in Evansville yesterday, and returned the same day to Madisonville, where they will make their future home. The bride is the daughter of Mr. William Garrett, formerly of Hecla, and is a beautiful and accomplished young lady; the groom is an employee of A. D. Sisk, and an industrious and trustworthy young man. He is a brother of Mrs. F. I. Croft, of this city. The BBS congratulates the young couple and wishes them a long and useful life.

By a vote of 28 to 9 the Indiana Senate today refused to debate the proposition as to whether Gov. Durbin should honor the Kentucky requisition for ex-Gov. Taylor and Chas. Finley.

#### Criticism of Mr. Knott.

The Louisville Commercial and State Chairman Barnett are exercising themselves into something of a fever by their extreme criticism of Editor Knott of the Evening Post, who has done no little warm writing himself. Truth is, there is a good deal of newspaper controversy and enmity in the Louisville atmosphere now—unfortunately. Mr. Knott has done much good work through the Evening Post for civil liberty in Kentucky, and has done it upon purely patriotic grounds. The BBS cannot endorse the severe criticisms recently heaped upon him; neither do a multitude of Republicans who have read, and do read, the Post and who entertain a high opinion for the patriotism and personality of its fearless editor.

#### AMBUSHED BY MOONSHINERS

United States Marshal and Posse Fired Upon in Nelson County.

Louisville, Ky., Jan. 28.—Deputy U. S. Marshal G. C. Thompson came in yesterday with two prisoners from Nelson County, charged with operating an illicit distillery near Malltown, in Nelson County. The deputy captured the men re-handled and destroyed the still and liquor on hand. Starting for Lebanon through the night the men were surprised a short distance from the still by a volley of shots from an ambush. The officers made a rush on the salaried party and captured one of them. So far as known, no body was hurt.

#### A Jolly Jekel.

Feigning alarm at the prospective extinction of one of our native products and the destruction of a great industry, Colorado has projected legislative discouragement to mountain lion slaughter. It is presumptively all on account of the prowess of our Vice President apparent. This statute in embryo, as it appears in the New York Sun, reads:

WHEREAS, A statute exists in this State providing for the payment of a bounty on mountain lion scalps;

and WHEREAS, The Hon. Theodore Roosevelt, the Rough Rider Vice President of the United States, is now touring the State with the avowed purpose of slaughtering all the mountain lions therein found;

and WHEREAS, The slaughter thereof by the Vice President of the United States supercedes the necessity of the bounty thus provided by law; therefore, be it

RESOLVED That upon the departure of the said Theodore Roosevelt, Rough Rider Vice President of the United States, with his knives so vividly portrayed in the newspapers of the United States, the law pro-

viding for the payment of a bounty upon mountain lion scalps should be repealed for two reasons: First, as a matter of economy. Second, because we must have mountain lions, and their multiplication should be encouraged to the end that the said Theodore Roosevelt, Rough Rider Vice President of the United States, may be induced to return to this State to repeat his acts of daring and prowess, and thereby add to the fame of the State.

## For Malaria, Chills and Fever

## THE BEST PRESCRIPTION IS Grove's Tasteless Chill Tonic.

The formula is plainly printed on every bottle—hence you know just what you are taking when you take Grove's. Imitators do not advertise their formula knowing that you would not buy their medicine if you knew what it contained. Grove's contains Iron and Quinine put up in correct proportions and is in a Tasteless form. The Iron acts as a tonic while the Quinine drives the malaria out of the system. Any reliable druggist will tell you that Grove's is the **Original** and that all other so-called Tasteless Chill Tonics are imitations. An analysis of every chill tonic shows that Grove's is superior to all others in every respect. You are not experimenting when you take Grove's—its superiority and excellence having long been established. Grove's is the only Chill Cure sold throughout the entire malarial sections of the United States. No Cure, No Pay. Price, 50c.
